About Me

I've been a web enthusiast for twenty years, ever since that first website I made during lunch breaks in my high-school library.

I've helped build the internet as much as it helped build me, always with ethical perspective and the desire to make more of the real world.

With an academic background in mathematics and raised by my family in the love of the humanities, I always strive in work environment where hard skills serve culture.

Strong points

Excellent relational skills and empathetic co-worker.

A down-to-earth approach in the (technical) decision making process built on years of experiences of failures and successes.

Curious and avid learner of all things old and new.

Skills

Programming languages

PHP (*Expert*) Python (*Expert*)
Javascript (*Expert*) Swift (*Advanced*)
Objective-C (*Advanced*) Shell
(*Advanced*) Haskell (*Advanced*
curiosity)

Markup Language

XHTML (*Expert*) CSS4 (*Expert*)
SASS (*Expert*)

Database and query language

MySQL (*Expert*) ElasticSearch
(*Advanced*) PostgreSQL (*Advanced*)
GraphQL (*Advanced*) Redis
(*Advanced*) CouchDB (*Advanced*)
Neo4J (*Intermediate*)

Other tech skills

Linux sysadmin (*Expert*) AWS
(*Expert*) Docker (*Expert*) Kubernetes
(*Advanced*) MS Azure (*Advanced*)
FFMPEG/Video (*Advanced*)

Business skills

Project Management (7y) Team lead
(10y+) Education and mentoring (6y)

Human languages

French (*Native*) English (*Fluent*)
German (*Written*)
